

Customer: JSC «VinnitsaBytHim», Vinnitsa region

Hardware / Software: remote I/O modules FESTO FB202 | PLC FESTO IPC, FPC | HMI EXOR MKDR16 | SCADA FESTO ODB NT | Profibus-FMS | Industrial Ethernet

Scope of work: field and central project, installation supervision, commissioning

Year of implementation: 2001

Key features of the system:

- Total number of actuators:
- Total number of weigh batchers:
 - batchers of liquid components:
 - batchers of bulk components:
- Total number of I / O signals, including:
 - analog inputs:
 - digital inputs:
 - digital outputs:

- Total number of control cabinets:
